## CAPABILITIES

### EXPERIENCED

When it comes to your project, you will be assigned a team based on their expertise and the specific project requirements.

### COLLABORATE

We work with you to deliver each project on time and on budget. Due to our 'brownfield' history we listen to you and your consultants to provide tailored solutions and ensuring a seamless delivery that meets each stakeholders' needs. We are skilled at creating property solutions that work in and around existing and occupied buildings.

### REVIEW

We monitor and review each project and provide regular communication throughout the project cycle so you can make informed decisions.

## Our care factors.

### COMMUNICATE

Communication is an integral part of our remedial projects. From commencement of the project's life to its completion, we understand the importance of ensuring all internal and external stakeholders are kept informed of all developments.

Our systems allow us to provide detailed and regular reporting to each party.

### TEAM

Our team is built on people with a diverse range of skills and investing in our employees by providing continual development, through both internal training and external Industry programs.

Our team includes engineers, builders and architects. Each demonstrates a high level of professionalism throughout each project, while ensuring customer service is paramount. This echoes and aligns with our company culture.

## SENIOR MANAGEMENT

**JAMES BOYD**  
Executive Chairman

Holding extensive experience within the building industry, James has a multi-diverse entrepreneurial background. James' technical background means he has the knowledge to evaluate all projects to make informed recommendations.

**PETER CAVALLARO**  
General Manager

With over 35 years' experience, Peter takes tremendous pride in assisting clients achieve their project objectives. Peter's business philosophy is embedded in the concept of team work, where appropriate resources are aligned to maintain clients expectations.

**TIM KURNIADI**  
Business Manager

Tim concentrates on operation, methodology and construction practices across each remedial and civil project. With an emphasis on collaboration and partnering, Tim ensures each client receives outstanding, cost-efficient service.

**MARIJA PETROVSKA**  
Business Development Manager

Marija ensures that our clients receive the outstanding service that PD Remedial is renowned for. Marija identifies new opportunities and implements effective marketing strategies to increase exposure, strengthen client engagement and long-term business partnerships.

**DAVID TRETHEWY**  
Operations Manager, Construction

With experience in a variety of building sectors, David brings his practical construction experience to every project. His skills range from occupied sites with tight construction zones to swimming pools and builds within environmentally sensitive areas.

**PAUL GANGEMI**  
Project Manager

With a trade background, Paul has over 25 years experience in the construction industry including several years in remedial work. Equally at home running a site, liaising with clients or managing a project, Paul's expertise covers a variety of sectors.

## MANAGEMENT SYSTEMS

Our refined quality, safety & environment management systems set us apart.

### INTEGRATED MANAGEMENT SYSTEM

Our health, safety, environment and quality (HSEQ) integrated management system is based on: AS/NZS 4801, AS/NZS ISO 14001 and AS/NZS ISO 9001. It ensures that health and safety hazards, quality assurance and environmental aspects are identified, risk assessed and managed throughout our operations.

### QUALITY & SAFETY MANAGEMENT

Safety is our foremost priority. We continually refine our quality control processes to ensure a safe working environment for all involved.

### ENVIRONMENT & SUSTAINABILITY MANAGEMENT

On every project, we inadvertently impact the environment and have a duty of care to mitigate these impacts through effective management of this risk.
